Profile

UI/UX Designer with 6+ years of experience designing enterprise web applications, complex workflows, and scalable design systems. With a hybrid background in visual design and front-end development, I bridge the gap between business requirements, technical constraints, and user needs. I collaborate closely with developers, product teams, and stakeholders to create intuitive, efficient, and visually polished digital experiences that support both user goals and business objectives.

Experience

Web UI/UX Designer

TINQIN

01/2020 - 11/2025 | Sofia, Bulgaria (Hybrid)

TINQIN is a software development company with a focus on the insurance sector.

- Designed user interfaces for complex insurance back-office applications.
- Collaborated with business analysts and developers to transform business requirements into scalable UX solutions.
- Built and maintained a design system ensuring consistency across the product ecosystem.
- Created reusable UI components using HTML and CSS to support efficient implementation.
